Howland Wood, Esq.,  
The American Numismatic Society,  
New York, N.Y.

Dear Sir:

I have read with great interest your monograph on the Gampola Larin Hoard. I enjoyed my visit with you very much, and appreciate the trouble you took in showing me through the museum, as well as your kindness in presenting me with a larin and also with your publication,

When you asked me whether the heavy disc coins occurred without an eccentric ring on the flat surface, I forgot to mention that those without any silver content at all (not often found) were without this ring.

Under separate cover, I am sending a pair of Siam-Shan weights, which I should like you to accept with my compliments.

Yours sincerely,

*W. Harding Kneidler*

Dr. W. Harding Kneedler,  
8801 Crefeld Street,  
Chestnut Hill,  
Philadelphia, Pa.

Dear Doctor Kneedler:

Your letter, together with the two Siamo-Shan weights, are at hand. I wish to thank you very much for these. They are exactly like some pictured in the Indian Antiquary by R. C. Temple.

I enjoyed meeting you the other day and trust that you will be able to come around here again before leaving for the East. Also, I would like to hear from you when you do get to Siam.

Very truly yours,

Curator
